

New Jersey Conservation POSTER CONTEST

2015

Prizes for
Statewide
Competition

1st Place	\$200
2nd Place	\$100
3rd Place	\$50

The New Jersey
Conservation Poster
Contest is open to all
students in grades 2-12
and students compete
in grade categories.
Local Soil Conservation
District prizes may also
be awarded!

Contest Sponsors:

The NJ Department of Agriculture, the NJ Association of
Conservation Districts and your local Soil Conservation District

Who Can Participate ?

The Poster Contest is open to all students in grades 2-12 — public, private, home schooled and youth groups included.

Why Participate ?

Designing a poster and researching the theme can give you a voice in your community about important conservation issues. Good posters capture people's attention and deliver stories in a way that everyone can understand. A powerful graphic can inspire people to be concerned about conservation.

Information Resources: *Local Heroes : Your Hardworking Pollinators*

You will want to learn all you can about the importance of pollinators. In researching about pollinators you will find a variety of opinions from a variety of sources. Pollinators are important to each citizen. There are many reasons for pollinator decline. We hope that you focus on solutions to increase pollinators and their habitats. Providing accurate information is essential. Find out what pollinators are in your area and see what your community is doing to help them.

You can find resources at your school or public library, science books, local newspapers, nature centers and from the NACD website www.nacdnet.org Stewardship & Education section. Get guidance from your teacher or parents to find information on the internet about *Local Heroes - Your Hardworking Pollinators*

Web Resources:

- <http://www.fs.fed.us/wildflowers/pollinators/>

Pollination:
A Symbiotic
Relationship

DID YOU KNOW.....

- ◊ Worldwide, approximately 1,000 plants grown for food, beverages, fibers, spices, and medicines need to be pollinated by animals in order to produce the goods on which we depend.
- ◊ In the United States, pollination by honeybees and other insects produces \$40 billion worth of products annually!

- ◆ We can thank pollinators for one in three mouthfuls of food and drink – everything from coffee and chocolate to most fruits and many vegetables in our diet.
- ◆ Pollinators are important for agricultural production.
- ◆ Native plants need pollinators.
- ◆ Both the plant and the pollinator benefit from pollination.
- ◆ Many animals serve important roles as pollinators.
- ◆ Bees are the most important pollinators.
- ◆ The annual income from pollinated crops in the US is quite astounding. Over \$12.1 billion per year and that does not include other crops like citrus, cranberries, blueberries, etc.

Online Tips for Creating an Effective Poster

The National Association of Conservation Districts at www.nacdnet.org provides links to assist with creating posters. Click on the "Stewardship & Education" tab and find "Poster Contest" under "Contests" for an overview of the 2015 theme, and for tips on what makes a good poster and the National Visual Arts Standards.

NJ Soil Conservation Districts (SCD) are special purpose subdivisions of the State. In cooperation with the State Soil Conservation Committee, they are empowered to conserve and manage soil and water resources and address stormwater, soil erosion and sedimentation problems that result from land disturbance activities. There are 15 Soil Conservation Districts in New Jersey. (See back page for list.)

In response to growing public concern for water quality, NJ conservation districts have become the primary local governmental agencies responsible for monitoring nonpoint sources of pollution associated with agriculture, construction and mining. The technical services of the USDA — Natural Resources Conservation Service and other resource agencies are made available through the districts.

New Jersey Rules

These rules must be followed for your poster to be accepted by your local Soil Conservation District. Entries that do not conform to the rules will not be judged.

Please review and follow your local Soil District rules for the deadline!

1. Clearly print your name and information on the entry form AND tape the completed entry form to the back of your poster.
2. Tape a 1-3 sentence explanation of your poster, neatly written on a 3" x 5" or 4" x 6" index card, to the back of the poster. Be sure to write your name and county on the index card.
3. **Contest theme "Local Heroes - Your Hardworking Pollinators" (with or without the -) must appear somewhere in your poster.** Leave a 1 inch border of white space at the edges of the poster; lettering should not run on to the edges.
4. The poster must be flat, no 3-D objects.
5. Poster size must be between 8.5" x 11" and 22" x 28".
6. Any medium may be used including paint, crayons, colored pencils, charcoal and paper. Computer designed artwork is allowed but **clip art is not acceptable.** No collage or montage.
7. One poster per student.
8. The poster must be the original artwork of the student.
9. **ENTRY DEADLINE: See Local District Rules** →
10. Decisions of the judges are final and all entries become the property of the contest sponsors.

Poster Evaluations

Posters will be judged on the following criteria: Relevance to contest theme: **"Local Heroes - Your Hardworking Pollinators"**

- Conservation message
- Visual effectiveness
- Originality
- Overall appeal

CASH PRIZES for the New Jersey Statewide competition are awarded by the:

New Jersey Association of Conservation Districts

First - \$200 Second - \$100 Third - \$50

Local District Rules & Prizes

Contact your local district to verify participation (Page 4)

The Food We Eat

Pollinators provide an ecosystem service that enables plants to produce fruits and seeds.

- 35% of crop production, worldwide
- Over \$18 to \$27 billion value of crops in U.S. (\$217 billion worldwide)
